

Political Districting System

Optional add-on product for U.S. Senate and House representatives

What are the features of the Political Districting System?

The Political Districting System is an optional, add-on product to the complete YourMembership.com solution.

This system is available for the U.S. Senate and House representatives and their districts. The integrated district information and system is based on the directory-listed constituent's primary address once it has been CASS certified using the YourMembership.com address verification system.

The following features are included with Political Districting:

- **Backend Representative Lookup Utility:** Administrators can access an exclusive backend feature to search representatives by name/state and view extended contact information, including a map for the state's districts. Administrators may use this lookup utility to find and contact constituents within their directory who are located within these districts.
- **Backend Directory Search Integration:** The Political Districting System is integrated with the backend community directory search. This allows administrators to perform complex, multi-criteria searches while providing all the backend capabilities of the directory search (messaging, bulk-email campaigns, directory exporting, etc.) and the added benefit of district and representative filtering.
- **Member Profile Integration:** When a member views their own profile bio on the website, the U.S. House and Senate representative information related to the member's primary address is listed. The member can click on the name of the representative to view additional information including: district information, affiliation, office address, phone, fax and website. This information may vary depending on the representative.
- **Frontend Representative Lookup Utility:** Members can access an exclusive frontend feature to browse representatives by state and view extended contact information, including a map for the state's districts.

Are any other add-ons required for the Political Districting System to function?

Yes. You must be using the CASS Certified Address Verification System in order to take advantage of political districting.

What fees are associated with this optional add-on?

One-Time Setup Fee: FREE!

Annual Fee: \$495

The Political Districting System is part of YourMembership.com's Performance Pack — learn more about the **Performance Pack** and the cost savings it delivers for several popular add-ons.
