

# Online Dues & Member Types

## Simplify dues collection, customize member types and levels

We know you value your members – but we also realize that one size does not fit all when it comes to establishing member types and membership levels. YourMembership.com's dynamic member management system enables you to control content and tailor it to specific groups – as well as create enticing dues options for your wide range of member types.

YourMembership.com appreciates your need to tailor your offerings to different member types and allows you to:

- Create multiple membership levels available to each of your member types
- Establish free memberships (or give discounted memberships)
- Allow introductory pricing option
- Select durations for your membership levels
- Create membership levels with limited number of career postings
- Create master member types with related sub-accounts
- Create membership levels with varying community access based on member type
- Collect and manage dues collection online
- Allow recurring auto-bill via credit card with real-time processing
- Protect the integrity of your data through the duplicate detection system
- Export membership and dues data

We understand that each member-centric organization caters to a unique group of member types. And YourMembership.com accommodates by remaining flexible and allowing your organization to establish multiple member types with different levels of access and unique pricing options based on membership level.

Also, YourMembership.com's secure administrative system (called YourDashboard) allows you to keep a quick and meaningful watch over the health of your member community. Utilize YourDashboard to import and export member and non-member data. Monitor logins, new members, online dues collection and more... and take quick control of your organization's entire online member community.
