

Event + Conference Management

Managing your community + its activities

Coordinating events, managing calendars and juggling seminar enrollment can be daunting tasks if you're using multiple applications. YourMembership.com's membership management software allows you to do all of that and so much more, like:

- Manage and easily customize event information and categories (including directions and other event information)
- Create non-event calendar entries
- Secure access to specific events to members only
- Allow online registration and payment (can offer meal choices and other registration peripherals as well as preferred name on tag, etc.)
- Manage event photos and galleries (multimedia sharing capabilities)
- Allow users to choose sessions
- Add event tickets for sale online with member pricing
- Cross-promote and sell other store items within events
- Export event registration lists
- Mass email event registration lists
- Schedule automated event reminder emails
- Syndicate via RSS/XML
- Quizzes and surveys (to gage the success of your event)
- NOW! (microblog feed for quick info blasts, like event reminders or countdowns)

YourMembership.com provides comprehensive event and conference management as part of its complete online member community solution. With YourMembership.com, you are in total control of your community – and well on your way to easier, more efficient event management.
