

Reporting + Data Management

Taking the pulse of your organization

Getting a quick read on your community and managing data input and output is essential and easy with YourMembership.com. Whether you're curious about your top posters or need to see which member renewals are upcoming, all the necessary tools and information are just a click away. With YourMembership.com's member management software you can manage data and:

- Import member and non-member profile data
- Real-time export of member and non-member data
- Export contact form information
- Export event registration information
- Export group and community blogs
- Export résumés/CVs and openings
- Export membership dues data/transactions
- Export donation data/transactions
- Export store order data/transactions

Our customizable reporting system allows you to:

- Create hundreds of reports and custom queries
- Save queries within administrative searches for reuse
- Save and share custom queries
- Export reports and saved query data for use offline
- Query data via our integrated API for automated data synchronization

We've also provided you with easy to manage reporting features that allow one click reporting for more than two dozen canned reports including:

- Donation funds
- Dues collected
- Membership expirations and projected dues
- Membership dues promo code use
- Store promo code use (for sales and/or shipping)
- Top 100 donors
- Top 100 blog posters
- Top 100 store items purchased
- Blog activity
- Profiles updated
- Member referral counts
- Duplicate member and non-member profiles
- Career center category subscriptions
- New registrants who have yet to pay dues
- and many more – with more continually added

YourMembership.com's member profile system makes it easy for your members to build connections and keep those connections active and lively. This activity is the key to establishing a vibrant online member community that's buzzing with active and engaged members.
